

U.S. Department of Transportation/Federal Highway Administration (FHWA)

REQUEST

- Develop a suite of materials that convey the agency's dynamic Accelerated Construction Technology Transfer process as well as the expertise, creativity and replicable solutions delivered by the program.

RESPONSE

- Develop a consistent template for print materials that could be efficiently populated by a consultant and workshop leaders.
- Produce an annual report that organized into easily scannable focus areas the diverse output of workshops addressing a wide variety of highway project challenges and opportunities.
- Create an interactive workshop toolkit that helps transportation agencies understand the benefits of the program and use them to maximum effect.

RESULTS

- Numerous workshop reports, as well as implementation-oriented compendiums of activity, such as ACTT II, ACTT Now, ACT III – Transition to Tomorrow, and ACTT – Building on Success, allow transportation agencies nationwide to access the creativity and recommendations of dozens of skill set experts in real world project planning and problem-solving scenarios.
